## TRIUMPH ASSURED FOR THE BIG TERRITORIAL FAIR NEXT WEEK.

Number of Entries Surpasses the Most Sanguine Hopes—Exhibition Park a Scene of Well Organized Activity—Splendid List of Special Features.

Special correspondence to THE TIMES.

REGINA, July 24, 1895.—The enormous number of entries that have already arrived and still keep pouring in, the wide spread interest that is being taken in the Fair all over the North West and Manitoba, the large number that have already signified their intention of participating in the sports and athletic contests, gives the most unqualified assurance of a phenomenal success for the Territorial Exhibition.

The most hearty expressions of satisfaction are heard on all sides, not only on account of the benefit that may accrue to the people of Regina themselves, but satisfaction for the sake of the Lieut. Governor Mackintosh, whose almost superhuman efforts in fostering and furthering the enterprise have achieved the result. In every department the number of entries are so great (now fifty per cent. over any exhibition ever held in Winnipeg) that the accommodation will have to be nearly doubled, especially in the classes of field grain, field roots, dairy products, and plants and flowers. Every district in the Territories will be well represented. It would be almost invidious to particularize, but Alberta will make a splendid showing in live stock, dairy products and field roots. It will require a train of seventeen cars to bring the exhibit from Calgary to Regina. Moose Jaw will also make a fine display in the same classes, as in fact will the whole of Assiniboia. Prince Albert will send a fine collection also—flour, manufactures of lumber, and woodwork of various kinds, also brick, tinware, furniture, and a very fine assortment of undressed furs. There will also be from that district a superior collection of native leather work, such as moccasins, leather clothing, and fancy beaded leather work; and the sisters of St. Ann's Convent, Prince Albert, are preparing for exhibition many valuable and handsome articles in the Ladies' Work and Fine Art classes. There will also be a number of interesting specimens in the Natural History class from that part of the country, such as mounted buffalo and deer heads, and a collection of woods, fish and native grasses. In the Dairy Products the exhibition promises to be, if not the best, at least one of the best ever seen in the Dominion, while the exhibit in Field Roots will be far the largest that has ever

been shown in the North-West or Manitoba;—although it can hardly be expected that the perfection could be attained in this class as would be had the exhibition been held later in the season. The display in plants and flowers will be one of the finest that has been made in Canada. One exhibitor alone requested that three-fourths of the original building set apart for this class should be allotted to him; his exhibit will be a car load in itself. The accommodation for the show in this class, dairy products, field grains, flour, etc., and field roots have had to be doubled. On Monday afternoon there was a meeting held at the Government House of all the committees on the field sports and athletic contests, such as trap shooting, baseball, cricket, polo, lacrosse, bicycle races, foot races, &c., and the reports were most satisfactory, in fact all were jubilant over the number that had signified their intention of competing in the various contests.

In addition to the list of attractions already published in the exhibition prize list, there will appear Major Robert H. Hendershott, the famous drummer boy of the Rappahannock with his son, one of the best fencers on the American continent; the five Martel family in their wonderful fancy bicycling performances; the Ducros double trap artists; Calf Shirt the Indian chief from the Macleod district, the wonderful rattlesnake charmer, will give one of his unique exhibitions every day; Moosewa the Indian athlete, said to be the fastest runner on the American continent, will be matched against all comers; Gynkhana, an afternoon of rare sport, which will include brandy-and-soda water races; bicycle dress parade; steep-chasing with led horses; bending races, and other athletic feats, characteristic of North-West life. The Gen. Tom Thumb Co. of Midgets will give a number of their most interesting dramatic performances. "The Drill of All Nations," a splendid spectacular entertainment, in which one hundred young ladies will take part, dressed in the costumes of the different nations of the world, passing in procession and making obeisance before a charming young lady upon a pedestal and representing "Miss Canada," will be one of the most interesting features in the list of attractions at the Exhibition. In addition to the above mentioned amusements, during the recent visit of His Honor the Lieut. Governor to Winnipeg, he engaged the three Bouffons, whose performances have been the great feature of the entertainment part of the Industrial Fair in that city, and also the dancers under the management of Professor Walker.

In addition to the above, 800 entries have been taken on the Winnipeg fair grounds by the agent for the Territorial Exhibition, which have not yet arrived. Amongst the foreign applicants for space in the main building for the purposes of advertising, the following are the principal: Chas. G. Ross, Innisfail, 10x30ft.; A. E. Maycock, Winnipeg, 7x8ft.; J. P. Keeler, Winnipeg, 15ft.; E. L. Drewery, Winnipeg, 15x4ft wall space; C.H. Wilson, Winnipeg, 14x35ft.; Leslie Bros., Winnipeg, 20x14ft.; and the Berlin Portrait Co., Winnipeg.

The weather since Sunday last has been beautiful and seems likely to remain so, at least several of the local prophets give us that gratifying report and we sincerely hope it may prove true. The finishing touches are being put on the Exhibition grounds, the grading and levelling are all but completed. Mr. Williams, the contractor, has nearly finished his contract on the buildings. The large marquees and other tents are being put up as rapidly as possible. The tank and wind mills are being erected at the wells, and another well is being sunk outside the grounds for the use of the tents in that neighborhood. In the manager's office and ticket office buildings are a number of clerks under the direction of B. B. Gordon, official secretary, J. K. Strachan, supt. of exhibits, and J. O. Pope, accountant; and all are working like niggers, while His Honor the Lieut. Governor in his office at Government House is the busiest of the lot. Numbers of exhibits are arriving daily. Loads of hay and straw for the use of the live stock are pouring in, and being made into stacks close to the stables on the grounds; in fact the scene in and about the Exhibition Park is one of bustle and activity, but all will be complete and in ship shape order by Monday the 29th.

A test was made this evening of the electric lighting of the performing platform, the grand stand and the grounds with the dynamo that has been placed in Exhibition Park for that purpose, and the test proved very satisfactory. A number of 1,200 candle power arc lamps were lighted and illuminated the place most brilliantly. Another test will be made to-morrow evening, when the interior of the buildings will be illuminated by arc lights in addition to the arc lights in the grounds.

### Along the P. A. Branch.

Roadmaster McIntosh with a staff of trackmen went north on Saturday last to place a siding leading to Hudson Bay Co.'s mill, Prince Albert east.

With the exception of the district surrounding Prince Albert (which had a light rainfall up to Thursday last) crops all along the branch are looking well. At Rosthern and Oiler they are very fine and a big harvest is looked for.

The rains of last week pulled things up at Saskatoon which had previously suffered from a dry spell.

Business is good at the latter place and an excellent fall trade is probable.

Tank and Bridge Inspectors and the head Roadmaster from Montreal have recently gone over the line, all of which indicates that the C.P.R. will take over the road when the lease expires and place it in first class condition.

Duck Lake sports came off last Wednesday. A special running from Prince Albert brought a number of visitors, besides which the population was augmented by some of the Saskatoon folks who went up on Tuesday's regular.

Quite a large number of northern people are visiting the Winnipeg Exhibition and the attentive and obliging conductor (Harry G. Hubbell) as usual looks cleanly after their comfort and convenience.

The Sylvest group have been through camp lately, and Roadmaster Jack Ryan has again resumed his usual calling occupation. Jack is not looking in good, but it takes a mighty lot of it to come places where the vegetation is starting.

## WHERE IS THE DEBENTURE MONEY?

COUN. HANNAH SAYS IT HAS BEEN MISDIRECTED.

The Council Strikes Taxation Rate at 20 Mills—Dog Taxes Coming in Slowly—Get Ready to Pay Poll Tax.

One new Councillor, Mr. Wm. Hannah, took oath of office and his seat at the board on Monday evening. Council elect Hicks was out on his mail run, which prevented his presence.

Mr. Findland for the union Sunday School excursion committee petitioned the Mayor to proclaim Friday, August 2nd, a civic holiday. The Council was agreeable, and proclamation issued.

Bills of W. R. Campbell \$1.50, and O. B. Fysh as returning officer \$15.00, were ordered to be paid, also expense accounts for postage, \$1.00, and supplies of hall, \$2.20. E. C. Rorison's June account for lighting was passed, \$8.50 of which was ordered to be applied on Mr. Rorison's tax bill for 1894, and balance \$31.50 to be paid Hitchcock & McCulloch.

On motion Coun. Hannah was selected as Chairman of the Board of Works.

J. W. Ferguson applied for appointment as tax collector. Application referred to Finance committee.

Mr. Rorison reduced his tender for supply of cinders for street crossings to 40 cents per yard.

Coun. Campbell and Kent moved that the Board of Works do prepare plans for sidewalks and submit same to Council.

The new chairman said the plans submitted to the ratepayers, upon the strength of which they had voted the \$5,000 debentures by-law, were the plans which in his opinion should be followed. It was hinted that those plans could not be adhered to strictly inasmuch as a portion of the \$5,000 debenture money had been devoted to, or would have to be devoted to, the liquidation of current expenses, to which hint

Coun. Hannah took decided objection. He said if a portion of that money had strayed into other channels it would have to be refunded and used for the object for which it was voted.

The Mayor admitted that such was the legal course, but he questioned the expediency. The larger portion of the debenture money had already been put into permanent improvements—its proper place,—but if the whole unexpended balance were now so expended, the Council would have to face the necessity of either raising another loan or putting the rate up to 25 mills; and he was sure the ratepayers would not view with pleasure that course.

Coun. Hannah thought the matter should be looked into, and the exact amount unexpended ascertained, before striking the rate, but after considering the argument that the reason is wanting late he agreed to second the motion of Coun. Kent, to strike the rate at 20 mills, and he gave notice to introduce a by-law at next meeting to confirm the resolution.

The matter of dog tags coming up, the inspector reported that only 23 persons had paid the tax. He wanted advice as to procedure. Coun. Hannah said his best advice to the collector was to collect. A motion was passed instructing the inspector to proceed immediately to enforce collection, and if necessary test the by-law.

Notice was given of introduction of by-law to appoint the inspector as poll tax collector.

A motion carried to the effect that on account of pressure of term work, the inspector be relieved of further labor in the C.P.R. garden, and the clerk was instructed to appoint the C.P.R. authorities of the same.

The inspector requested permission to take a couple of days off to attend the Regina fair. Granted.

Upon adjournment, the Mayor reminded the board of the regular committee meetings on Monday next, and Coun. Wilson particularly requested Coun. Kent not to be late, to which Coun. Kent returned that if Coun. Wilson had as much to occupy him—Coun. Wilson—Ah, I mean the police of us.

**WHO SHALL BE BLAMED?**

The statement regarding North-West funds, published in this paper two weeks ago, is quoted by the Edmonton Bulletin, which says that "it discloses, if correct, a very serious condition of affairs in regard to North-West funds. It appears that out of \$230,000 which was appropriated by parliament at the preceding session for the expenses of government in the North-West for the year ending on the first of this month, and placed under the control of the North-West Assembly, \$45,000 has been expended by the North-West executive in the relief of distress in the Regina and adjacent districts last fall, under promise of the Minister of Interior that it would be refunded by parliament at its present session, which promise has not been fulfilled, either by a special vote to meet the expenditure or by an addition to the lump sum voted to meet the expenses of the current year. In other words, the schools and public works of the Territories are \$45,000 short of the amount apportioned to them by vote of the North-West Assembly. This is a shortage of about one-fifth of the total amount voted by parliament, to pay for the expenditures that are already made. No doubt the recent delays in paying school grants and public works accounts from Regina is evidence in support of THE TIMES' statement. These accounts for last year's services will most likely be paid out of this year's funds, and will leave this year short to that amount. That the relief of the destitution around Regina was properly a matter of Dominion expenditure there can be no doubt, quite as much so as the purchase of seed grain this spring, and it should have been left to the Dominion to deal with. In assuming responsibility for a Dominion expenditure too great a willingness to be used, and they got just exactly what they might expect. Every day that overdue accounts are left unpaid aggravates the situation."

There is no disputing THE BULLETIN's assertion that the relief necessity of last autumn was a matter for Dominion expenditure. The Minister of Interior admitted it. Our Dominion member was, perhaps reluctantly, forced to take the same ground. We have Mr. Davis' word for it, too, that the then Premier acknowledged Dominion responsibility. In the light of present knowledge, of course it cannot be denied that the Executive made a mistake by assuming any share of responsibility in the case. They made the mistake of acting upon the assumption that they were dealing with an honorable man, whose promise might be relied on. They foolishly thought, because Hon. Mr. Daly said the money would be paid back to them, that the money would be so paid back. In a word, they innocently supposed they were dealing with a gentleman, while later developments prove that the assumption had absolutely no foundation in fact, as it is abundantly manifest that the Executive made a mistake. It was one of those mistakes that have

to the side of virtue. Christian philosophers tell us that a child's trust is one of the most beautiful of human attributes extant in this wicked world; and certainly the Executive's faith in the promise of Mr. Daly was a shining example of childish trust most beautifully displayed—and most ruthlessly betrayed. The Bulletin says the betrayal is exactly what was to have been expected. Ah, no! why should we wish to blot from the official page that beautiful exhibition of trust? Without faith, life would be burdensome. The power of faith is evidence of its possessor's own honesty. Let us rather encourage faith, that life may continue bearable. To encourage and foster faith, the heinous crime of betrayal of it should meet with the swift and sure retribution of the lash of public opinion. Mr. Daly is the betrayer of the faith of the Territorial Executive, and he richly deserves an unsparring application of the lash.

When the relief emergency last fall arose, and when the Regina Leader took the untenable ground that the Executive should deal with it, THE TIMES was the first to combat the proposition. We then said THE Leader was making "a direct attempt to shift the responsibility from the shoulders of the Dominion Government where it rightly belongs. It would be a sheerest folly to look to the North-West Government in the emergency. A king among statesmen could not effect relief without money, and the Assembly lacks the money." We thought then, and we think yet, that rigid adherence to the out-of-date position which the North-West Government occupies, would have compelled the Executive to abstain from taking any action in the emergency. But a little later when the Ottawa authorities blankly refused to take action themselves, while promising to recoup the Executive for all necessary expenditure in the case, we thought, and we think yet, that it was expedient for the Executive to take action. It would be most unfair at this juncture to place upon the Executive the whole burden of blame for the mistake. In the first place the Executive was approached by bodies of the affected farmers. Later the members of the Assembly were pressed to intercede with Dominion ministers. The Assembly responded by despatching delegates to meet Mr. Daly at Winnipeg. All the time our Dominion Member was howling at the Executive to "get to work." The Executive's action was endorsed by the Dominion Member, by the Assembly, and by the people. If the mistake be a blameable one, then are we all to be blamed equally with the Executive.

### BRANDS.

L. Ayshford Knight, of Yorkton, complains bitterly that the occupation of losing and finding horses maketh him sick. He suggesteth a neat scheme by which every transient equine may be sent home, thereby saving to the owner time, appetite and health. Mr. Knight says: "Why not cause every man to brand his horse on the nigh fore foot with his own initials (of his name, we presume), and on the off fore foot with the initials of his post office; and let the government by Ordinance allot initials for each post office? Then the finder of a stray horse can advise the owner by mail of the whereabouts of the wandering animal."

Necessity is the mother of invention, and no one can wonder that necessity has impelled the invention of Mr. Knight's suggested plan, as an improvement upon the present prescription of the Assembly. The Ordinance respecting strays is pure humbug. It provides in effect that the finder of an estray shall advise the Lieut. Governor, who shall advertise description, etc., in the "Official Gazette." Said publication, we may state, is a double-royal octavo newspaper issued twenty-four times a year by the Queen's Printer at Regina, who is editor and manager of the subscription, business, advertising and mailing departments. The price of the paper is something like two dollars per annum. Clubbing offers are never made, and short trial terms at reduced rates are never offered. But dead-head subscriptions are not excluded. In fact, but for the dead-heads, the mailing list would be a very insignificant affair. The paper is worthless to all North-West newspapers (except to the Junction of the Peace, and to some other officials in the towns and country

## R. BOGUE.

The "Official Gazette" cannot be described as a popular paper; it fails to catch public fancy. Nobody ever betrays anxiety to secure advance copies of it. The business man and the farmer have no time for it; and as a family paper it will never be a success. It may be a governmental necessity, but the people cannot feel the "need" of it. It does not fill a long-felt want; it scarcely seems to fill any want at all. It is not entertaining, particularly instructive, nor sensational. Nobody bothers with it, and as a consequence its circulation is limited to official circles. No merchant would think of advertising in it. As an advertising medium it is useless, and the estrays which the Assembly has said shall be advertised by it, are simply not advertised at all. The plan of advertising prescribed by Ordinance fails to advertise, therefore we say the plan is humbug. A feasible and comparatively a more useful plan would be to enforce advertisement in local newspapers, and provide for exchange of advertisements by newspapers in certain areas. Make every newspaper the centre of a district, and provide for the forwarding of proof sheets of advertisements inserted therein to all the papers surrounding the centre. That the stockman who does not subscribe for and read his local paper deserves to lose his stock, is by no means a scandalous proposition.

Coincident with Mr. Knight's proposal for hoof branding, it is interesting to note that certain hide dealers are complaining that many skins are seriously damaged by branding. In mixed farming districts like these which make up Manitoba and Eastern Assinibota it is possible that Mr. Knight's plan might prove perfectly feasible. On the western ranches, however, where the herds are larger and where "round-ups" are a yearly necessity, the brand upon stock to be convenient and useful must hold a conspicuous and easily discernible position. Hoof branding on the big ranches is out of the question.

It is to be hoped some measure may be devised to remedy Mr. Knight's vexatious sickness; his is not an isolated case.

### AMATEUR SPORTS.

When Governor Mackintosh offered a prize to be competed for by baseball clubs at the Territorial Exhibition it was suggested in the interest of amateur sport that the regulations of the proposed tournament should be so framed as to compel all competing clubs to play only bona fide members of such clubs, who should be actual residents of the places which the respective clubs represented. The prize will carry with it the North-West championship—necessarily an amateur championship. Pressure is being brought to bear from some quarters to have all restrictions erased, to the end that certain weak clubs may, by importing crack foreign batteries, stand a chance of capturing the prize. The advocates of the unrestricted tournament say that exhibition visitors want to see good ball playing, and will be careless as to where the players come from. We hope the tournament managers will not be deceived by such an argument. If to see faultless ball playing were the intention, a better plan would have been to engage a couple of stars from the States, which should not their parts and pocket their

pay. Semi-professionalism is everywhere else killing amateur sport. Semi-professionalism has not in the past taken great hold in the North-West, because there has not been money enough in it. Care should now be taken that our sports be kept free from it. It is only "sports" of the dead-game variety—those who feel no interest in a game unless they have a money stake in it—who really prefer professional games to honest amateur playing. When professionalism enters sport ceases to be sport; it becomes a business, and a crooked, gambling business at that. The interest of those people who love sport for its own sake in lacrosse, baseball, bicycling and roving has been stifled and killed by just this semi-professionalism which it is now urged should be allowed in next week's tournament at Regina.

If a club paid \$5.00 for a banner and painted "championship" upon it, small honor would attach to its possession. The club which wins with specially imported players are entitled to just that degree of honor and no more, for the losing club might, by paying \$5.00 more, have used the same imported players.

No-To-Bac sold and guaranteed by W. W. Bole no cure no pay. Book free. Sterling Remedy Co., 374 St. Paul St., Montreal."

### Freight Wrecks Instead.

To the Editor of THE TIMES.  
DEAR SIR,—Noticing in your last issue a report of a destructive hail storm at Milestone, I wish to assure you that said storm was purely of mythical character, as we have had no hailstorms and no heavy storms of any kind this season. Hail storms have visited Ronks on the west and Yellow Grass on the east, but at Milestone we have had only gentle, refreshing showers regularly every few days since spring opened, and when anybody advises you that we were favored with "hailstones as thick as length," or any other variety of hailstones, you may put it down as a myth.

Yours truly,  
GEO. G. BARBER.

SWIFT CURRENT, July 18, 1895.—W. Rutherford, manager of C. A. C. & Co. Co. farm here, is leaving the company at the close of July and on the evening of the 11th inst. the sheep shearer and other employees of the farm presented Mr. Rutherford with a valuable gold watch and chain. Mr. and Mrs. Rutherford had been at friends in Swift Current who will greatly miss them. Swift Current's loss is Dunsmuir's gain. Richardson Bros. arrived in town on Monday from their ranch about sixty miles north of C. A. C. & Co. Co. shipped five cars of wool to Toronto this week. Mr. Rutherford was the purchaser.

Chas. Reid took in Maple Creek on Saturday. W. Alexander, successor to Mr. Rutherford on the farm here, is spending a few days in Winnipeg.

Hay cutting has started in this district. W. Rutherford has gone to Medicine Hat to look after his sheep. We hope to see him back soon. C. H. Powell was in Dunsmuir last week purchasing some cattle for his ranch.

M'INNIS IN WINNIPEG

ASSINIBOIA'S PATRON CANDIDATE TALKS ON JULY 12TH.

Summary of Speech Delivered by Jno. K. McInnis of Regina at the Orange Demonstration at Winnipeg.

As a seconder of a strong resolution against federal interference with Manitoba, J. K. McInnis of Regina, the candidate for the Commons of the Patrons of the Assiniboia, is reported by the Winnipeg Tribune to have spoken as follows:

Mr. McInnis said it was fair to assume that the majority of those whom he was privileged to address, were residents of this prairie province. He and many others had come from the great territories beyond to tell their brethren here and the people of Manitoba in general, that the North-West was proud of Manitoba's stand upon the school question. The Territories had common cause with the province in this matter, for separate schools and dual language systems had been foisted upon them in their Territorial constitution. If Manitoba should succeed in maintaining her national school system there would be encouragement for the people of the Territories to persevere in the same direction. This young and vigorous province had set many worthy examples to many parts of the Dominion. She has successfully contended for better terms; for the abolition of railway monopoly; and in her efforts to maintain her national schools patriarchy was thrown aside in the support of principle. At first the people of Manitoba and the North-West were imbued with that strong party feeling which is so prevalent in the older provinces, and which has worked and is still working great injury to our fair Dominion. But the clear skies and broad plains of the North West and the fact that our institutions are in a formative condition all tended to the dissipation of partyism and to the promotion of patriotism. There was no doubt that at the outset the province was strongly Conservative, but hundreds of strong supporters of that party flunked under the Liberal banner when the latter party in this province espoused the cause of non-sectarian education. This was proof, men were learning to place principle before party. Another remarkable instance of the same thing was that the city of Winnipeg, some time ago, elected a supporter of the present Federal government by a majority of 700 and that upon his resigning, an opponent to the government was elected. The majority of 700 vanished and with it an additional 300 which constituted the new majority. If Winnipeg wished more temporary gain, she might have chosen to stand in with the party in power, but having just grievances she expressed them in the manner provided by the constitution, viz: At the ballot box. Public sentiment of Canada as expressed to-day throughout the press and upon the platform demanded a similar opportunity to pronounce upon the question of national schools. The idea of a moribund parliament which was elected at a time when this question was not an issue attempting to deal with it was altogether inconsistent with constitutional usage and popular rights. If Sir Mackenzie Bowell calculated that because he was an ex-grand master of the Orange order, Orangemen would stand by him on this occasion he had reckoned without his host. Gates of this broad land were thrown open and immigrants of every nationality, kindred, tongue and creed made welcome and every man accorded a right to worship under his vine and fig tree unmolested. But in order that a homogeneous nationality might be evolved from these different elements it was necessary that the state should see to the education of the youth and to accomplish this no

system other than a purely non-sectarian one was practicable. He (Mr. McInnis) readily endorsed the sentiment of the reverend gentleman who had preceded him that the Orange fraternity and other supporters of national schools had no feeling of ill-will towards their Roman Catholic fellow citizens as individuals. At the same time strong ground was taken against submission to the dictation of a foreign potentate and it was to be hoped that ground would be strenuously maintained and that there would be no cowardly compromise. This assemblage to-day was standing upon heroic ground - the very spot where a quarter of a century ago, Thomas Scott, a member of the Orange fraternity, was foully murdered at the instigation if not by the very hand of the perpetrator of two rebellions. Here too the pioneers of the Portage Plains and other citizens were deprived of liberty by being incarcerated in old Fort Garry, suffering insult and all the horrors of suspense. What a change a quarter of a century has brought! Mr. McInnis concluded in a brilliant appeal to his hearers to prove worthy sons of worthy sires and to transmit to their children unimpaired their blood-bought rights and liberties. For:

Who would be a traitor knave;  
Who would fill a coward's grave;  
Who so base as to be a slave;  
Let him turn and flee.

He had great pleasure in seconding the resolution and earnestly hoped that the people of this new west would stand shoulder to shoulder and if necessary, face death itself in the maintenance of the principle of justice to all and special privileges to none. Thus only would they be true to the past, true to themselves in the present and true to their posterity.

Regina Presbytery.

The regular meeting of the Regina Presbytery was held in Knox church, Regina, on Wednesday, July 10th. Rev. J. A. Carmichael was elected moderator pro tem. There were present eight ministers, four elders and three students laboring within the bounds. Rev. J. G. McKeechie was appointed moderator for the year.

It was decided that Rev. Campbell remain in Wolsley until March 31st next.

A request from Pense for a grant was ordered to be sent to the Secretary of the Church and Manse Building Board.

A request from Lansdowne to erect a session there was granted and left with the session at Whitewood.

Re Meadow Lea church, it was decided that a committee consisting of Revs. Campbell, McLeod, Muirhead and Mr. Murray meet Lansdowne and Broadview, and have power to issue the whole case.

The following were appointed to dispense the sacraments in the fields named:

Colleston, Battleford, Rev. Rochester; Longlake, Buffalo Lake, Rev. McKeechie; Broadview, Rev. McKay; Lansdowne, Wapella, Rev. Muirhead; Fort Qu'Appelle, Parklands, Rev. Matheson; Welwyn, Hillburn, Glen Adelaide, Pipestone, Rev. Reddon; Saskatoon, Rev. McLeann; Rose Plain, Rev. McLeod; Sintaluta, Rev. Campbell; Duck Lake, Rev. Bryden; Shell River, Rev. Moore; Qu'Appelle, Rev. Robson.

It was agreed that all foreign missionaries be instructed to fill up the schedules as far as possible and forward to the Presbytery.

The following are the standing committees for the year. The first mentioned in each is convenor:

Home Missions - Rev. J. A. Carmichael, A. Matheson, J. W. Muirhead, J. G. McKeechie, W. Rochester, J. A. Reddon; Messrs. G. Beres, R. Martin.

A New Farming Company.

The Calgary Herald understands that the Canadian Land and Ranch Co. Ltd., a very strong syndicate, have purchased all the property of the Canadian, Agricultural, Coal & Colonization Co. They do not intend at present carrying on agriculture on so extensive a scale as formerly, but the question of irrigation is receiving the careful attention of the board, with a view, later on, of extending their agricultural business as far as practicable. In the meantime stock raising will be carried on, with a limited amount of agriculture. Mr. D. H. Andrews, their manager, who has recently visited all their farms, reports that he never saw the crop stock of all kinds looking as well as they do this season.

Judge Scott Welcomed at Macleod

The Macleod Gazette records a pleasing incident which occurred at the end of the session of the Supreme Court held there on Friday week. C. F. E. Conybeare, representing the Southern Alberta bar, congratulated Hon. Mr. Justice Scott on his appointment as judge of the Supreme Court. Mr. Conybeare said his Lordship's appointment was a recognition on the part of the Dominion Government that we had in the North West men capable of being judges. Mr. Conybeare in conclusion said that he hoped the same cordial relations would exist between His Lordship and the Southern Alberta bar as had always existed between them and the late Hon. Mr. Justice Macleod, who was their personal friend and beloved by all those who were under him.

His Lordship replied briefly and said: "I thank you for the expressions you have given of the good feelings of the bar towards me. I am very glad to say that I have known all the members of the profession in the Territories, and that I have always been on the most cordial terms with them. I am pleased to find that my appointment has been received with favor, and hope that I shall continue to enjoy their esteem and confidence." Speaking of the late Mr. Justice Macleod, Judge Scott said: "I had a very great regard for him, and no one regrets more than I do his untimely death. I do not expect to hold the same place in the hearts of the people of this district as Colonel Macleod, but I trust that, with your assistance, I shall be able to perform the duties of my position in a satisfactory manner."

Heart Disease Relieved in 30 Minutes. - Dr. Agnew's cure for the heart gives perfect relief in all cases of organic or sympathetic heart disease. In 30 minutes, and speedily effects a cure. It is a powerful remedy for palpitation, shortness of breath, smothering spells, pain in left side and all symptoms of a diseased heart. One dose convinces. Sold by W. W. Bole.

Rheumatism Cured in a Day. - South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. Mysteries of the

HUMAN BRAIN!

The latest discovery in the science of the world is that nerve centres located in or near the base of the brain control all the organs of the body, and when these nerve centres are deranged the organs which they supply with nerve fluid, or nerve force, are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centres will cause the derangement of the various organs which they supply with nerve force; that is, when a nerve centre is deranged or in any way diseased it is impossible for it to supply the same quantity of nerve force as when in a healthful condition; hence the organs which depend upon it for nerve force suffer, and are unable to properly perform their work, and as a result disease makes its appearance.

As least two-thirds of our chronic diseases and ailments are due to the imperfect action of the nerve centres at the base of the brain, and not from a derangement primarily originating in the organs itself. The great mistake of physicians in treating these diseases is that they treat the organs

and not the nerve centres, which are the cause of the trouble.

The wonderful cures wrought by the Great South American Nerve Tonic are due alone to the fact that this remedy is based upon the foregoing principle. It cures by rebuilding and strengthening the nerve centres, and thereby increasing the supply of nerve force or nervous energy.

This remedy has been found of infinite value for the cure of Nervousness, Nervous Prostration, Nervous Paralysis, Sleeplessness, Forgetfulness, Mental Despondency, Nervousness of Females, Hot Flashes, Sick Headache, Heart Disease. The first bottle will convince anyone that a cure is certain.

South American Nerve Tonic is without doubt the greatest remedy ever discovered for the cure of Indigestion, Dyspepsia, and all Chronic Stomach Troubles, because it acts through the nerves. It gives relief in one day, and absolutely effects a permanent cure in every instance. Do not allow your prejudice, or the prejudice of others, to keep you from using this health-giving remedy. It is based on the result of years of scientific research and study. A single bottle will convince the most incredulous.

Mrs. J. G. Chalmers has returned from a visit to friends at Rapid City, Man.

G. M. Annable took a car of cattle to Calgary last week to exchange for horses.

Hugh Ferguson came home on Wednesday from a trip to Winnipeg. He spent a day at Moccasin on his way back.

J. T. Simpson was a Moose Jaw visitor to the Winnipeg Industrial. He afterwards visited some sections in Northwestern Manitoba.

The fire-guarding outfit working on the Soo line reached Pasqua on Friday last, and is now making fifteen miles a day on the return trip to Port. A.

Jno. G. Gordon, harrister, is spending a health-seeking holiday at the National Park hot springs. He will be absent from town for a month.

The Earl of Aberdeen, Governor-General of Canada, will formally open the Territorial Exhibition at Regina on Tuesday next, 30th July, at 2 p.m.

New price list from Jaa. McMillan & Co., Inc., 200-212 First Ave. North, Minneapolis, Minn., the largest hude and fur dealers in the North-West, has been received at this office, where it can be referred to at any time.

The Battleford Herald fathers the statement that the Prince Albert train was five hours late last week, the delay being caused by the excessive growth of weeds upon the track, which made the rails so slippery that the wheels would not take hold.

H. A. Galbraith, who was for years western representative of J. & J. Taylor, safe manufacturers, died last week and was buried at Winnipeg on Sunday. Galbraith was a man of more than ordinary abilities, and was noted all over the west for conversational powers.

Mr. Silver, of Grand's Repository, Toronto, was a passenger on Wednesday's express going west, en route to Calgary to purchase horses. Mr. Silver and Mr. T. W. Robinson, of Moose Jaw, were school fellows. They chatted over their play days while the train was making up in the yard.

Mrs. T. W. Robinson and family left last week for Stayner, Ont., to spend a summer holiday. Mrs. R.'s father, Mr. Trent, who had been sojourning here and at the Maple Creek ranch for some weeks, returned with them. Mr. Robinson accompanied them as far as Winnipeg. He came back on Tuesday.

Last season's scarcity of employment for laborers in this country has resulted in causing a scarcity of laborers this season and there is going to be extreme difficulty in procuring harvesters sufficient to handle the big crop. Men in Manitoba are demanding three and four dollars a day for harvesting and farmers are in a quandary. The C.P.R. Co. are finding it difficult to get men to work on the ballasting gang. Several of the men who were brought from the east on pass have disappeared upon arrival.

The C.P.R. has commenced the work of ballasting the Soo line from Estevan to Pasqua, which will give employment to a large number of men and an impetus to trade in Estevan and Moose Jaw. Three Mogul engines have been brought from Winnipeg for the work. Conductors Garrison and Jackson will have charge of the work trains, and there will be an additional crew in the pit. Fifteen men will work the steam shovel in the pit, and a gang of seventy-five men will do the sparring on the track. The work has been started at the south end; the purpose is to ballast to Moosehead from the Estevan pit. For the balance the gravel will be taken from Moose Jaw.

The Anglican Synod of the Diocese of Qu'Appelle meets at Regina on July 31st.

Some sixty teachers of summer term schools have applied for holidays during next week, to enable them to visit the Territorial Exhibition.

Mr. Austin McDonald has been appointed agent for J. C. Huber's hygiene baths, and is prepared to sell or administer. Many citizens claim to have received much benefit from these baths. —Advt.

E. Hunt, a medical student of Liatowel, Ont., and brother of Dr. Hunt, of Indian Head, spent some days here this week visiting former Liatowel residents, —Mrs. McDonald, Mr. Ferguson and others.

THE TIMES was in error in stating last week that R. B. Ferguson, of Regina, was appointed to arrange the baseball tournament. So Mr. Ferguson apprises us by letter. Hamilton Lang of Moose Jaw is the manager.

Friday next, August 2nd, has been proclaimed a civic holiday by Mayor Bogue. Under auspices of the town Sunday Schools, an excursion will be run on that day to the Regina Exhibition. The Fair management has changed Children's Day from Tuesday to Friday.

The August number of the Delineator is called the midsummer number, and contains a large variety of interesting matter suitable for the season. Ladies who have deferred completing their summer wardrobes will be particularly pleased with this number, for the styles were never more dainty and appropriate. A special article is devoted to dressing for stout ladies, and another to bathing and swimming, with illustrations of the latest fashions in bathing costumes. There is a very practical paper on cleaning and renovating laces, feathers and gloves, and a variety of useful information is given in the monthly talk around the tea table. Subscription price of the Delineator \$1.00 per year.

The wife of Hon. David Laird died two weeks ago at Charlottetown, P. E. I. The Examiner of that town says: "As the wife of a privy councillor and governor of the North-West Territories Mrs. Laird was called to fill the highest positions in the country; and she did so with efficiency and dignity. Her sweetness and amiability won for her a very large number of friends at Ottawa and in the west, as in her native province. She was a daughter of the late Hon. Thomas Owen, of Cardigan, and closely related to several of our leading families. An expression of the sympathy of the community was appropriately given in the resolution of condolence with her mourning husband and family unanimously passed by the Charlottetown Board of Trade."

Asst. Indian Commissioner Forget, of Regina, went west on Wednesday to the Blackfoot reservation at Glacier. To a Times reporter Mr. Forget stated that the recent trouble with the Indians there, which is now dissipated, had been given much more than its deserving importance. The friction arose through the stricter discipline enforced in the new boarding school than had prevailed at the previously established day school. When the boarding school was opened the Indians thought it a fine institution, as attendance at it secured food and clothing. But when they discovered that the children could not go and come as will as they had been used to do at the day school, their sentiments changed. Then the unfortunate death of a child and the derangement of the Indian who killed Skynner came as a climax to their unrest and caused intense excitement on the reserve, as a like occurrence would do in a white community.

Mr. Forget was on his way up to install a new teacher and to explain fully to the Indians the objects of the strict regulations at the school. Their sun dance is now over and he anticipates no further trouble. The Asst. Commissioner spoke in warm terms of praise of the work on the reserve of Rev. Mr. Tins, against whom the Indians' prejudice concentrated. His work and the erection of buildings had been largely accomplished with money secured apart from government funds; and Mr. Forget thinks a short term of absence will cause the Indians to appreciate what he had been doing, and that they will soon be glad to have him return.

Divine service will be held at the house of Mr. J. de la Hay, Buffalo Lake, on Sunday afternoon next at 3 o'clock. On the same Lord's Day in the morning at 10:30, service will be held at the church in the Valley (English Village).

The staff of examiners are still wrestling at Regina with the teachers' examination papers, and if rumor be true, they are having the best of it. It is hinted that their report will reveal a terrible slaughter of the innocent candidates, and that not more than twenty per cent. of those who wrote will be granted certificates.

Under superintendence of D. Mowat, M.L.A., a magnificent spectacular exhibition will be placed on the boards under canvas at Regina during the time of the Fair. The production is entitled "The National Fair," and represents fourteen nationalities, including Canada, England, Germany, United States, Romania, Italy, Ireland, Spain, Scotland, Japan, France, Turkey, Greece, and India. Fifty bewitching young ladies representing the play. The Times was favored a free evening since with a view of the stage fittings and scenery, which in extent and grandeur completely overshadow anything ever presented in the North-West. The whole stage including side wings will take a space of 40x100 feet. Special music has been written by Mr. C. F. A. Saxby, while preparation of scenery and staging is in the hands of Messrs. Dixon and Dwyer. By this means a presentation of a new play of 100x100 feet has been produced. Visitors at Regina should not fail to witness "The National Fair."

Mr. Moorhouse, creamery expert, came in from Prince Albert last night.

Mr. Jno. McElhuish, merchant tailor, who has been a respected citizen of Moose Jaw for some years, has decided to remove to Brandon. Sale of his household effects is to be held to-day.

At the Presbyterian church on Sunday morning, Rev. Mr. Hodnett will preach on the topic, "The one Indispensable of Christian Life," and in the evening, "Gain without Profit, and Loss without Compensation."

Dr. W. Harvey Smith, Oculist of the Canadian Pacific Railway, will be in Moose Jaw on the 29th and 30th of this month for the purpose of testing the sight and hearing of the Company's employees at this point, and may be consulted in regard to diseases of the eye, ear and throat by persons desiring so to do.—Advt.

### Royal Templars.

The regular weekly meeting of the royal degree members was held at the council chamber, Russell hall, on Tuesday last. Select Councilor Nelson occupied the chair, Vice Councilor Mrs. Geo. B. B. the vice chair, and R. W. Timmins the Past Councilor's seat of honor.

The semi-annual reports of the Select Councilor, Herald, Treasurer and Financial and Recording Secretary were adopted. The Financial Secretary, J. C. A. Potvin, through press of work incidental to his position in the C.P.R. service, reluctantly tendered his resignation from that office and the same was accepted.

The partial report of the Webber concert committee showed that the receipts had exceeded the disbursements by over \$10.00.

After the transaction of much general business the council closed with the following well rendered programme:—Organ solo, "Love's Light," waltz, Miss Nellie Morrison; recitation, "The Soldier," Miss N. Saunders; vocal solo, "The Soldier," boy of Gethsemane; Miss D. Battell; reading, "Licensed to sell," Miss Ida Battell; reading, "Nothing to me," Miss Emilie Hudson; reading, "The Elder's death-bed," Mr. W. J. Nelson; organ solo, "The Fatal Wedding," Miss Nellie Morrison.

### The Winnipeg Industrial.

Rain last week very seriously interfered with the wallet of the man who sat at the receipt of customs for the Winnipeg Industrial Fair managers. Thursday in a five days' fair is always relied upon for big attendance, but last week Thursday opened with a steady downpour of rain which had commenced in the middle of the night and which continued with but slight intermission during Thursday, Friday, Saturday and even Sunday. As a civic half-holiday had been proclaimed, there were probably twelve thousand visitors and citizens in the city on Thursday morning who had laid plans to attend the fair that afternoon, and excursion trains on the branch and main railway lines were billed to take in several thousand more. The drenching, continuous rain spoiled it all, and not more than two thousand people ventured into the mud of the fair grounds that day. There was a short dry spell on Friday and the park was fairly well attended. On Saturday, the managers decided to continue the show on Monday and Tuesday of this week, as the greater portion of the racing and sporting programme had been left unfinished. The weather on those days was propitious, yet without the Exhibition board will have a deficit of at least \$1,000.00 to face, which with good weather last week would have given place to a handsome surplus.

The exhibition itself was good in nearly every class. The departments of grains and vegetables were the only exceptions; in these the display was meagre. There were magnificent specimens of horseradish; and the display in all classes of cattle, as our correspondent reported last week, seemed to be perfection itself; the horticultural hall was a tower of loveliness; the show of dairy products was extensive and excellent. The main hall was occupied chiefly by advertising displays made up of photographs, lantern slides, photographs, and many beautiful pictures and paintings were shown. Two working silver makers occupied a corner and attracted considerable attention. A most unique and valuable exhibit in the main hall was furnished by Fritz Gieseler, the Bohemian glass-blower, who will be in Regina next week, and whose attraction is well worth ten times the amount he charges for a view.

### PROROGATION.

The Session of Dominion Parliament Closed on Monday Last.

The close of the late session of Parliament was marked with an unprecedented incident; viz., prorogation did not take place at the time when His Excellency had informed both Houses that he would come down to the Senate chamber for the closing ceremony.

The cause of the delay was the belated Hudson's Bay Bill. That title, however, will now have to be dropped, because Mr. Daly told the House that the Bill had not in view a road to the Bay, but simply a colonization line for the Dauphin district. There was nothing startling about the Bill. It dealt with the \$80,000 subsidy voted by parliament three years ago for a completed line of 250 miles. The Bill gives the company privilege to earn half of the subsidy by completing half the mileage—\$40,000 a year upon completion of 125 miles. There was a clause to allow the road to start from Portage or Gladstone instead of Winnipeg. On Saturday morning the Bill was read a second time after some amendment. At the afternoon session Hon. Mr. Mills raised the point of order that the Bill was really a private Bill, and should have been introduced by petition instead of as a government measure, as the third clause authorized a change in the route laid down in the charter granted as a private Bill. After some discussion Mr. Speaker ruled the point of order well taken, and the clause was struck out accordingly. The Bill then passed the Commons.

It was not expected there should be any trouble about the Bill going through the Senate and at the morning session of both Houses a letter was read from the Governor General's secretary announcing that His Excellency would come down to the Senate chamber at 5:30 to prorogue Parliament. But His Excellency did not come; the band did not play; the royal salute was not fired; the guard of honor did not have the pleasure of presenting arms; the mounted escort simply rode down to Rideau Hall and back again and Parliament did not prorogue. The fact is the Senators kicked and would not pass the Hudson's Bay Bill, and as the government was determined that it should pass, prorogation had to be postponed until Monday when the Senators having got over their fit of sulks passed the Bill and His Excellency came down and prorogued parliament.
